

# COBLUXSL32R

L I G H T Y E A R S A H E A D

**All you have to lose is your expensive power bill**

The COBLUXSL32R is a high performance, super bright, commercial grade light, using a quality LED manufactured by LG. It is designed to replace your current 150W Metal Halide rectangular shop lighters. With just 10hrs use per day, each light can save around \$150 per year based on current electricity rates. It uses only 32W and will last 50,000 hours.

## Replace your existing Downlights with Quality, High Performance LED lights

Our heat sinks are made from 6063-T5 class aluminium profile finished with an anodic oxidation treatment. This means the CobluxSL32R (201 w/m.k.) has more than twice the heat conductivity of cast aluminium (96.2 w/m.k.). This means that the CobluxSL32R will operate at a much lower temperature, have a lower level of light degradation and reduce your operating costs.

The optical glass lens has up to 93% light transmittance, offering ideal illumination effects. With excellent colour rendering it is available in warm white, natural white, pure white and cool white and will easily fit directly into your current cut-out.

Protect your stock, fixtures and fittings from UV damage as LEDs do not cause fading or attract insects.

Accepted under the NSW Energy Saving Scheme, the COBLUXSL32R is a cost effective replacement for businesses in NSW.

Ask your local Cleanenviro representative for information today.

Part No.	COBLUX SL32R
Wattage	32W
Replacing	150W Metal Halide Rectangular Shop lighter
Input Voltage	85 -265V AC
Power Factor	0.96
Lamp Circuit Current	650mA
Lamp Circuit Voltage	240V ± 1V
Rated Life	50,000 hrs
Lens	Toughened flat optical standard glass
LED	LG SMD5630
Lumen Output	3188lm
CRI (Ra>)	86
Colour Temperature (CCT)	Warm (3,000K) Natural (4,000K) Pure (5,000) Cool (6,000K)
Beam Angle	120°
Dimmable	Available
Dimensions	230mm X 144mm X 100mm
Cut-out Size	223mm X 130mm
Environment	Interior/Exterior
Certification	CE, RoHS, C-TICK & SAA
Facia Finish	White
Warranty	3 Years Limited Warranty
